Pelham, NH 03076

Re: Tennessee Gas Pipeline LLC
Right of Way Special Permit SP-106

Dear Selectmen:

Please be advised that Tennessee Gas Pipeline Company has scheduled a vegetation management program which includes the use of herbicides on the pipeline known as the Concord Lateral that passes through your municipality. Targeted vegetation includes all tree species, tall maturing shrubs, and vines. No spraying will occur in areas where the growth of such vegetation is prevented by other means, for example in pastures, lawns, croplands, etc.

It is anticipated that the herbicide application will commence on or about August 13th, 2012. Experienced applicators certified or under the immediate supervision of a NH certified applicator, will work along the right-of-way and selectively apply the herbicides glyphosate and metsulfuron methyl via back pack equipment to certain target vegetation. A Special Permit has been issued by the NH Department of Agriculture, Division of Pesticide Control to complete this work. The vegetation management contractor working in your community will be: Vegetation Control Services, of Athol, Massachusetts.

In accordance with NH State Pesticide Regulations, enclosed you will find an "herbicide Use Notification," topographical maps delineating the affected right-of-way and mail in coupons for those right-of-way abutting residences or landowners who wish to receive personal notification or advise us of a sensitive area on the right-of-way.

Also, per regulation of the Federal Energy Regulatory Commission, supplemental notifications will be sent to each landowner on our easement, soliciting their preference for use of herbicides or alternate means for vegetation control on their property.

If you have any questions or desire further information, please contact me at 860 763-6012 or via email at Stephen_Morawski@KinderMorgan.com.

Sincerely,

Stephen Morawski, C.H.M.M.
Principal Environmental Representative

Herbicide Use Notification

Tennessee Gas Pipeline Company intends to apply the herbicides Rodeo and Escort XP on the Concord Lateral Pipeline in 2012.

RIGHT-OF-WAY

Concord Lateral (Pipeline Corridor
from Concord to NH/MA Stateline)

Towns

Concord, Pembroke, Allenstown,
Hooksett, Manchester, Londonderry,
Windham & Pelham.

Approximate Start Date

August 13th, 2012

In accordance with NH State Regulations, individual landowners whose property abuts the right-of-way, or over whose property the right of way passes, may request and receive individual written notification 30 days prior to pesticide applications. To receive individual notification, fill out the attached Notice Request Coupon and return to TENNESSEE GAS PIPELINE at address indicated below. Coupons must be received by TENNESSEE GAS PIPELINE no later than July 6th, 2012.

In accordance with NH State Regulations, individual landowners whose property abuts the right-of-way, or over whose property the right of way passes, have the right to request and receive the approximate date(s) (within 5 days before or 5 days after the actual date of application) that pesticide will be applied to the right-of-way in question. Requests should be made to TENNESSEE GAS PIPELINE at the address below.

Further Information may be requested by contacting: Stephen Morawski, Principal Environmental Representative, Tennessee Gas Pipeline Company LLC, 8 Anngina Drive, Enfield, CT 06082, BUSINESS HOURS: M-F 8am – 4pm, Phone Number: 860-763-6012
